A17.18/4:

Bibliographies in the Quick Bibliography Series of the National Agricultural Library, are intended primarily for current awareness, and as the title of the series implies, are not indepth exhaustive bibliographies on any given subject. However, the citations are a substantial resource for recent investigations on a given topic. They also serve the purpose of bringing the literature of agriculture to the interested user who, in many cases, could not access it by any other means. The bibliographies are derived from computerized on-line searches of the AGRICOLA data base. Timeliness of topic and evidence of extensive interest are the selection criteria.

The author/searcher determines the purpose, length, and search strategy of the Quick Bibliography. Information regarding these is available upon request from the author/searcher.

Copies of this bibliography may be made or used for distribution without prior approval. The inclusion or omission of a particular publication or citation may not be construed as endorsement or disapproval.

To request a copy of a bibliography in this series, send the title, series number and self-addressed gummed label to:

U.S. Department of Agriculture

DOCUMENT DELIVERY SERVICES TO INDIVIDUALS

The National Agricultural Library (NAL) has a unique responsibility to attempt to supply copies of agricultural publications not found elsewhere. Filling requests for materials readily available from other sources would divert its resources and diminish its ability to serve as a national source for agricultural and agriculturally related publications. Therefore, NAL should be viewed as a library of last resort and individuals should submit requests first to local or state sources prior to sending to NAL. Possible sources are the land-grant university or other large research libraries within a state. If the needed publications are not available from these sources, the requests may be submitted to NAL with a statement indicating their non-availability.

Individuals in other countries should submit requests through major university, national or provincial institutions.

LOAN SERVICE – Materials in the collection are loaned only to other *libraries*. Requests for loans should be made through local public, academic or special libraries.

The following materials are **not** available for loan: serials (except USDA serials); rare, reference, and reserve books; microforms; and proceedings of conferences or symposiums. Photocopy or microform of non-circulating publications may be purchased as described below.

PHOTODUPLICATION SERVICE – Use "USDA Request for Photocopying" (form LF-607) which may be requested in advance from our Library. A *separate form* should be submitted for each article or item requested. Requests should be as complete as possible with a minimum of abbreviation. The source of the citation should be given. If the citation is from an NAL database (CAIN/AGRICOLA, *Bibliography of Agriculture*, or the NAL catalog) and the call number is given, that call number should be listed in the proper block on the request form. Willingness to pay charges should be indicated on the form. Indicate compliance with copyright law or include a statement that the article is for research purposes only. Requests cannot be processed without these statements.

Rates are:

Electrostatic copy, microfilm and microfiche –
$ 5.00 for the first 10 pages or fraction copied from a single article or publication.
$ 3.00 for each additional 10 pages or fraction.

Duplication of NAL-owned microfilm – $ 10.00 per reel.

Duplication of NAL-owned microfiche – $ 5.00 for the first fiche and $ .50 for each additional fiche.

Billing – Fees include postage and handling, and are subject to change. Invoices are issued quarterly by the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Requesters are encouraged to establish deposit accounts with NTIS.
DO NOT SEND PREPAYMENT.

SEND REQUESTS TO – USDA, National Agricultural Library, Lending Branch, ILL, Beltsville, Maryland 20705. Questions concerning these services may be made by correspondence to Head, Lending Branch or by telephoning (301) 344-3755.

NOTE –

- Once requests have been accepted and processing has begun, requests cannot be cancelled. The appropriate charge for filling requests will be applied.

United States Department of Agriculture | National Agricultural Library | Public Services Division | Beltsville, Maryland 20705

DOCUMENT DELIVERY SERVICES AVAILABLE to Libraries and Other Information Centers and Commercial Organizations

The National Agricultural Library (NAL) accepts requests from libraries and other organizations in accordance with the national and international interlibrary loan code and guidelines. In its national role, NAL has a unique responsibility to attempt to supply copies of agricultural publications not found elsewhere. Filling requests for materials readily available from other sources would divert its resources and diminish its ability to serve as a national source for agricultural and agriculturally related publications. Therefore, NAL should be viewed as a library of last resort. Requestors should submit requests first to State/region/network sources prior to sending to NAL. Within the United States, possible sources are the land-grant university or other large research libraries within a state. Requesters in other countries should first try major university, national or provincial institutions. If the needed publications are not available from these sources, the requests may be submitted to NAL with a statement indicating their non-availability.

• Requests may be submitted on the American Library or the International Library interlibrary request form, by TWX (710-828-0506) or via the OCLC interlibrary loan subsystem. Our OCLC symbol is **AGL**, and we request that the symbol be entered twice. The complete name of the person authorizing the request is to appear on each form.

• The standard bibliographic source which lists the title as owned by NAL should be noted on each request. Requests for periodical articles should be verified. If verification is not possible, indicate the sources searched and give the sourceof the citation requested. Those requests which are verified or for which the citation source has been given receive a more thorough search. Unverified requests may be returned. If the citation is from an NAL database (CAIN/AGRICOLA, *Bibliography of Agriculture*, or the NAL catalog) and the call number is given, this call number should be included on the request.

LOAN SERVICE – Monographs published in the United States or abroad may be lent to U.S. libraries. Monographs published in the U.S. may be lent to libraries in other countries. The loan period is one month unless a shorter period is indicated on the due slip. The loan may be renewed for an additional month if there is no reserve request. The renewal request should be received prior to the due date. The borrowing library is responsible from the time of dispatch for any loss or damage incurred.

The following materials are **not** available for loan: serials (except for USDA serials), rare, reference and reserve books, microforms, and proceedings of conferences or symposiums. Photocopy or microform of the non-circulating publications will be supplied automatically as described below if the requesting organization indicates that this is acceptable on the loan request form.

PHOTODUPLICATION SERVICE – A separate completed interlibrary form should be submitted for each article requested. Willingness to pay charges should be indicated on the form. Indicate compliance with copyright law or include a statement that the article is for research purposes only. Requests cannot be processed without these statements.

Rates are:

Electrostatic copy, microfilm and microfiche –
$ 5.00 for the first 10 pages or fraction copied from a single article or publication.
$ 3.00 for each additional 10 pages or fraction.

Duplication of NAL-owned microfilm – $ 10.00 per reel.

Duplication of NAL-owned microfiche– $ 5.00 for the first fiche and $ .50 for each additional fiche.

Billing – Fees include postage and handling, and are subject to change. Invoices are issued quarterly by the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Requesters are encouraged to establish deposit accounts with NTIS.
DO NOT SEND PREPAYMENT.

SEND REQUESTS TO – USDA, National Agricultural Library, Lending Branch, ILL, Beltsville, Maryland 20705. Questions concerning these services may be made by correspondence to Head, Lending Branch or by telephoning (301) 344-3755.

NOTE –

• Once requests have been accepted and processing has begun, requests cannot be cancelled. The appropriate charge for filling requests will be applied.

USDA Regional Document Delivery

Through agreements with the major land-grant libraries in select states, USDA Employees or libraries in those states may send their requests for document service directly to the land-grant university library for service. If the document cannot be supplied, it will be automatically forwarded to a larger regional land-grant library and a notice of this action sent back to the requestor. If the regional library cannot fill the request, it is forwarded to the National Agricutural Library (Utilization Section) for completion. This service exists in the following states, and Form AD-245 or the CALS printout form should be sent to these libraries. Phone numbers may be used for emergency services.

File 10

Contains citations to documents published later than January 1979.

0001
Abstracts on cassava (Manihot esculenta Crantz).
(Cali, Colombia) Cassava Information Center, Centro International de Agricultura Tropical,. Description based on: Vol. 4 (Dec. 1978). v. ; 24 cm. (NAL Call No.: SB211.C3A37).

0002
Accumulation and distribution of dry matter and nutrients during a 12-month growth cycle of cassava (Manihot esculenta).
Howeler, R.H. ; Cadavid, L.F. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Oct 1983. v. 7 (2). p. 123-129. ill. Includes references. (NAL Call No.: SB183.F5).

0003
Agronomic and economic studies of cassava--legume intercropping systems.
Vaz, C.R. de. ; Silva, K.P.U. de; Gunaratna, L.H.P. Colombo : Ceylon, Dept. of Agriculture. Tropical agriculturist. 1982. v. 138. p. 111-116. Includes 9 references. (NAL Call No.: DNAL 26 T751).

0004
Agronomic research on cassava cultivation in Rwanda.
Mulindangabo, J. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 78-80. (NAL Call No.: SB210.E15R66).

0005
Alcoholic fermentation of raw cassava starch by Rhizopus koji without cooking.
Fujio, Y. ; Suyanadona, P.; Attasampunna, P.; Ueda, S. New York, N.Y. : John Wiley & Sons. Biotechnology and bioengineering. Apr 1984. v. 26 (4). p. 315-319. Includes references. (NAL Call No.: 381 J8224).

0006
An automated enzymic assay for determining the cyanide content of cassava (Manihot esculenta Crantz) and cassava products.
Rao, P.V. ; Hahn, S.K. Oxford, Eng. : Blackwell Scientific Publications. Journal of the science of food and agriculture. Apr 1984. v. 35 (4). p. 426-436. ill. Includes references. (NAL Call No. 382 S012).

0007
An automatic cassava planter (Single row, mounted, improved hopper prototype).
Odigboh, E.U. ; Ahmed, S.F. Tokyo : Farm Machinery Industrial Research Corp. AMA, agricultural mechanization in Asia, Africa and Latin America. Autumn 1982. v. 13 (4). p. 15-20. ill. 2 p. ref. (NAL Call No.: S760.A75A35).

0008
Bacterial blight on cassava (Manihot esculenta, Xanthomonas manihotis, Sudan).
Kwaje, S.L.PPRBA. Rome : World Reporting Service on Plant Diseases and Pests, FAO. Plant protection bulletin. 1982. v. 30 (2). p. 82-83. (NAL Call No.: 421 P692).

0009
Behaviour of cassava starch in various solvents (Solubilization, gelatinization).
Moorthy, S.N.STARD. Weinheim, W. Ger. : Verlag Chemie. Starch = Starke. Nov 1982. v. 34 (11). p. 372-374. Includes references. (NAL Call No.: 309 ST22).

0010
Biochemical and statistical methods (Epidemiological studies and biochemical investigations of thyroid function, cassava).
Bourdoux, P. ; Putzeys, G.; Lagrasse, R.; Van Steirteghem, A. Ottawa : International Development Research Centre, c1982. Nutritional factors involved in the goitrogenic action of cassava / editors, F. Delange, F.B. Iteke, and A.M. Ermans. p. 20-24. (NAL Call No.: RC656.3.N88).

0011
Biochemical changes involved in the post-harvest deterioration of cassava roots (Manihot esculenta, wound response).
Rickard, J.E.TROSA. London : Her Majesty's Stationery Office. Tropical science. 1981. v. 23 (3). p. 235-237. 12 ref. (NAL Call No.: 26 T756).

0012
Biological control of cassava mealybug and cassava green mite: front-line release strategy (Phenacoccus manihoti, Mononychellus tanajoa).
Lema, K.M. ; Herren, H.R. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 68-69. (NAL Call No.: SB210.E15R66).

0013
Botryodiplodia stem rot of cassava and methods of selecting varieties for resistance.
Otim-Nape, G.W. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 86-88. (NAL Call No.: DNAL SB210.T76T74 1983).

0014
Breeding cassava.
Byrne, D. Westport : AVI Publishing Company. Plant breeding reviews. Literature review. 1984. v. 2. p. 73-134. ill., maps. Includes references. (NAL Call No.: DNAL SB123.P55).

0015
Burundi (Cassava, sweetpotatoes, production levels).
Cimpaye, D. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 89-94. map. (NAL Call No.: SB210.E15R66).

0018
Canopy structure on growth and development of cassava (Manihot esculenta Crantz).
TURRA, Ramanujam, T. ; Indira, P. San Jose : Instituto Interamericano de Ciencias Agricolas. Turrialba. July/Sept 1983. v. 33 (3). p. 321-326. ill. Includes 7 references. (NAL Call No.: DNAL 8 T86).

0019
Casava (Manihot esculenta Cranz.), a tropical crop with promising future (As human food, feed, economic potentials in developing countries).
Petrzik, J. Praha : Institutu tropickeho a subtropickeho zemedelstvi. Agricultura tropica et subtropica. 1981. 1981. (14). p. 147-158. Includes references. (NAL Call No.: SB111.A2P7).

0020
Casava plants from muristem cultures freeze-preserved for three years (Manihot esculenta, conservation germplasm).
Bajaj, Y.P.S. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Nov 1983. v. 7 (3). p. 161-167. ill. Includes references. (NAL Call No.: SB183.F5).

0021
A Case for vegetable proteins in developing countries.
Oke, O.L.WRNDA. Basel : S. Karger. World review of nutrition and dietetics. 1975. v. 23. p. 259-295. ill., charts. Includes 60 references. (NAL Call No.: 389.1 W892).

0022
Cassava.
Cock, J.H. Chichester England : Wiley, c1984. The Physiology of tropical field crops / edited by Peter R. Goldsworthy and N.M. Fisher. p. 529-549. ill. Includes references. (NAL Call No.: DNAL SB185.5.P49).

0023
Cassava.
Cock, J.H. Los Banos, Laguna, Philippines : International Rice Research Institute, 1983. Symposium on potential productivity of field crops under different environments. Literature review. p. 341-359. Includes references. (NAL Call No.: DNAL S600.S9 1980).

0024
Cassava: A basic energy source in the tropics.
Cock, James H.SCIEA. Washington : American Association for the Advancement of Science. Science. Nov 19, 1982. v. 218 (4574). p. 755-762. ill., charts. Includes bibliographical references. (NAL Call No.: 470 SCI2).

0025
Cassava: a potential concentrate for animal nutrition in the tropics.
Khajarern, S. ; Kajarern, J.M.; Phalaraksh, K.; Kitpanit, N.; Terapuntuwat, S. Townsville, Qld. : James Cook University of North Queensland, 1980. Animal health and nutrition in the tropics : research for development : seminar one / Australian Development Assistance Bureau. Literature review. p. 135-156. Includes references. (NAL Call No.: SF724.A54).

0026
Cassava as a food.
Okezie, B. Onuma.CRFND. ; Kosikowski, Frank V. Boca Raton : CRC Press. CRC critical reviews in food science and nutrition. 1982. v. 17 (3). p. 259-275. charts. 79 ref. (NAL Call No.: TP368.C7).

0027
Cassava-based diets for rabbits.
Fomunyam, R.T. ; Adegbola, A.A.; Oke, O.L. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 114-116. (NAL Call No.: DNAL SB210.T76T74 1983).

0028
Cassava for animal feeding: effect of variety and plant age on production of leaves and roots.
Gomez, G. ; Valdivieso, M. Amsterdam : Elsevier. Animal feed science and technology. Apr 1984. v. 11 (1). p. 49-55. Includes references. (NAL Call No.: SF95.A55).

0029
Cassava forage silage as a feed source for Zebu calves in the tropics.
TAGLA. Moore, C.P. ; Cock, J.H. Guildford : Butterworth Scientific. Tropical agriculture. Apr 1985. v. 62 (2). p. 142-144. Includes references. (NAL Call No.: DNAL 26 T754).

0030
Cassava green mite: its distribution and possible control (Mononychellus tanajoa, in Africa).
Nyiira, Z.M. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 65-67. (NAL Call No.: SB210.E15R66).

0031
A cassava harvester: design analysis and prototype development.
Odigboh, E.U. ; Ahmed, S.F. Tokyo : Farm Machinery Industrial Research Corp. AMA, Agricultural mechanization in Asia, Africa and Latin America. Summer 1982. v. 13 (3). p. 40-48. ill. 8 ref. (NAL Call No.: S670.A75A35).

0032
Cassava in Asia: a look at the present and at the future (Production, consumption, as food, feed).
Lynam, J.K. Cali : Centro Internacional de Agricultura Tropical. Cassava newsletter. Nov 1983. v. 7 (2). p. 7-9, 11. ill. (NAL Call No.: SB211.C3C38).

0033
Cassava leaves as human food (Manihot esculenta).
Lancaster, P.A.ECBDA. ; Brooks, J.E. New York : New York Botanical Garden. Economic botany. July/Sept 1983. Literature review. v. 37 (3). p. 331-348. ill. Includes references. (NAL Call No.: 450 EC7).

0034
Cassava meal for baby pig feeding (Colombia).
Gomez, G.NURIB. ; Valdivieso, M. Los Altos : Geron-X, Inc. Nutrition reports international. Sept 1983. v. 28 (3). p. 547-558. Includes references. (NAL Call No.: RC620.A1N8).

0035
The cassava mites (Mononychellus tanajoa, Mononychellus progresivus, Mononychellus caribbeanae, Tetranychus urticae and Tetranychus cinnabarinus, South America and the Caribbean area, lowland tropics).
Byrne, D.H.PANSC. ; Bellotti, A.C.; Guerrero, J.M. London : Centre for Overseas Pest Research. Tropical pest management. Dec 1983. Literature review. v. 29 (4). p. 378-394. Includes references. (NAL Call No.: SB950.A1P3).

0036
Cassava mosaic disease (in Kenya, geminivirus).
Guthrie, E.J. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 59. (NAL Call No.: SB210.E15R66).

0037
Cassava, new potential for a neglected crop /James H. Cook. -.
Cock, James. Boulder : Westview Press, 1985. "Prepared under the auspices of the International Agricultural Development Service and CIAT ... with the support of the German Agency for Technical Cooperation"--Prelim. - Includes index. xvi, 191 p. : ill. ; 24 cm. -. Bibliography: p. 168-179. (NAL Call No.: DNAL SB211.C3C56).

0038
Cassava newsletter.
(Cali) Centro Internacional de Agricultura Tropical.. Title from cover -Description based on: No. 2 (July-Dec. 1977). v. : ill. ; 28 cm. (NAL Call No.: SB211.C3C38).

0039
Cassava products: HCN (hydrogen cyanide) content and detoxification processes.
Bourdoux, P. ; Seghers, P.; Mafuta, M.; Vanderpas, J.; Vanderpas-Rivera, M.; Delange, F.; Ermans, A.M. Ottawa : International Development Research Centre, c1982. Nutritional factors involved in the goitrogenic action of cassava / editors, F. Delange, F.B. Iteke, and A.M. Ermans. p. 51-58. (NAL Call No.: RC656.3.N88).

0040
Cassava program annual report.
Cali, Colombia Centro Internacional de Agricultura Tropical.. Description based on: 1980. v. : ill. ; 27 cm. (NAL Call No.: SB211.C3C39).

0041
Cassava propagation methods for commercial production (Zimbabwe).
Mariga, I.RAGJA. Salisbury : Ministry of Agriculture, Zimbabwe agricultural journal. July/Aug 1982. v. 79 (4). p. 133-137. ill. Includes references. (NAL Call No.: 24 R34).

0042
Cassava screening in Rwanda.
Mulindangabo, J. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa :

proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 45-48. (NAL Call No.: DNAL SB210.T76T74 1983).

0043
Cassava yield losses from brown leaf spot induced by Carcosperidium henningsii.
Terri, J.M. ; Mtakwa, P.W.; Mahana, D. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 79-81. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0044
Cassavaby S.M. Tracy. -.
Tracy, S. M. Washington : U.S. Dept. of Agriculture, 1903. 32 p. : ill., map ;. (NAL Call No.: DNAL Fiche S-70 no.167).

0045
Cereal replacers as alternative sources of energy for pigs (Cassava, Northern Ireland).
Walker, N. London : Butterworths, 1983. Recent advances in animal nutrition, 1983 / W. Haresign. Paper presented at the 17th Nutrition Conference for Feed Manufacturers, 1983, University of Nottingham. p. 43-57. Includes references. (NAL Call No.: SF95.N87 1983).

0046
Changes in coumarin and phenol contents and peroxidase activity depending on the drying methods of cassava root slices.
Garcia, V.V. ; Flores, D.L.; Uritani, I. Tokyo : The Society. Nippon Shokuhin Kogyo Gakkaishi = Journal of Japanese Society of Food Science and Technology. 1984. v. 31 (3). p. 203-207. Includes references. (NAL Call No.: 388 J822).

0047
Changes in the nutritional quality of fermented cassava tuber meal.
Ezeala, D.O. Washington, D.C. : American Chemical Society. Journal of agricultural and food chemistry. May/June 1984. v. 32 (3). p. 467-469. Includes references. (NAL Call No.: 381 J8223).

0048
Changes in total cyanide content of tissues from cassava plants infested by mites (Mononychellus tanajoa) and mealybugs (Phenacoccus manihoti).
AGEND. Ayanru, D.K.G. ; Sharma, V.C. Amsterdam : Elsevier. Agriculture ecosystems & environment. Dec 1984. v. 12 (1). p. 35-46. Includes references. (NAL Call No.: DNAL S601.A34).

0049
Changes of cyanide content and linamarase activity in wounded cassava roots (Manihot esculenta).
Kojima, M.PLPHA. ; Iwatsuki, N.; Data, E.S.; Villegas, C.D.V.; Uritani, I. Rockville : American Society of Plant Physiologists. Plant physiology. May 1983. v. 72 (1). p. 186-189. ill. Includes references. (NAL Call No.: 450 P692).

0050
Characterisation of DNA forms associated with cassava latent virus infection.
NARHAD. Stanley, J. ; Townsend, R. Oxford : Information Retrieval. Nucleic acids research. Apr 11, 1985. v. 13 (7). p. 2189-2206. ill. Includes 28 references. (NAL Call No.: DNAL QD341.A2N8).

0051
Characteristics of cassava resistance to superelongation disease (Elsinoe brasiliensis) (Cultivars).
Zeigler, R.S.PANSC. ; Alvarez, E.; Lozano, J.C. London : Centre for Overseas Pest Research. Tropical pest management. June 1983. v. 29 (2). p. 148-158. ill. Includes references. (NAL Call No.: SB950.A1P3).

0052
The chemical composition and true metabolisable energy content of cassava root meal imported into Northern Ireland (Poultry diets).
Stevenson, M.H.JSFAA. ; Graham, W.D. Oxford : Blackwell Scientific Publications. Journal of the science of food and agriculture. Oct 1983. v. 34 (10). p. 1105-1107. Includes references. (NAL Call No.: 382 S012).

0053
Chlorophyll depletion in leaves of field-grown cassava clones infested by cassava green spider mites, Mononychellus tanajoa (Bondar) (Acarina: Tetranychidae) (Nigeria).
Ayanru, D.K.G.TAGLA. ; Sharma, V.C. Guildford : Butterworth Scientific. Tropical agriculture. Apr 1983. v. 60 (2). p. 85-88. Includes references. (NAL Call No.: 26 T754).

0054
Comparative studies of bacteria causing blight of cassava in Arica, Asia and South America (Xanthomonas manihotis, Xanthomonas cassavae, Manihot esculenta).
Ikotun, T.EUMBA. Cairo : National Information and Documentation Centre. Egyptian journal of microbiology. 1981. v. 16 (1/2). p. 35-45. plate. 2 p. ref. (NAL Call No.: QR1.J6).

0055
Comparison of the effect of yam, cassava and alfalfa on cholesterol metabolism in the rat.
Adamson, I.NURIB. ; Eastwood, M.; Brydon, W.G. Los Altos : Geron-X, Inc. Nutrition reports international. Mar 1983. v. 27 (3). p. 551-560. Includes references. (NAL Call No.: RC620.A1N8).

0056
The complete substitution of cassava peel meal for maize in pig grower-finisher rations.
NURIB. Obioha, F.C. ; Ujoh, S.C.; Okoro, E.O.; Ozigbu, D. Los Altos, Calif. : Geron-X, Inc. Nutrition reports international. Jan 1985. v. 31 (1). p. 35-41. Includes 8 references. (NAL Call No.: DNAL RC620.A1N8).

0057
Constraints to disease resistance in various food crops grown in Latin America (Beans, cassava, varieties).
Lozano, J.C.FIBRD. ; Schwartz, H.F. Brasilia : Sociedade Brasileira de Fitopatologia. Fitopatologia brasileira. Oct 1982. v. 7 (3). p. 327-332. Includes references. (NAL Call No.: SB599.F55).

0058
Contamination of cassava flowers, fruits and seeds by Xanthomonas campestris pv. manihotis.
Daniel, J.F. ; Boher, B. (Cali, Colombia) : Centro Internacional de Agricultura Tropical, 1982. Proceedings of the fifth International Conference on Plant Pathogenic Bacteria, August 16-23, 1981 at CIAT, Cali, Colombia / technical editor J. Carlos Lozano; production editor Paul Gwin. p. 614-617. Includes references. (NAL Call No.: QR351.I57 1981).

0059
Continuous enzymatic cooking and liquefaction of starch using the technique of direct resistive heating (Ethal fermentation using starch from cassava roots, Brazil).
Varella, V.L. ; Concone, B.R.V.; Senise, J.T. ; Doin, P.A. New York, N.Y. : John Wiley & Sons. Biotechnology and bioengineering. July 1984. v. 26 (7). p. 654-657. ill. Includes references. (NAL Call No. 381 J8224).

0060
Control of cassava mosaic disease in Kenya (Manihot esculenta).
Bock, K.R.PANSC. ; Guthrie, E.J. London : Centre for Overseas Pest Research. Tropical pest management. Sept 1982. v. 28 (3). p. 219-222. Includes references. (NAL Call No.: SB950.A1P3).

0061
Control of the cassava green mite in Uganda.
Odongo, B. Otim-Nape, G.W. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 101-102. (NAL Call No.: DNAL SB210.T76T74 1983).

0062
Conversion of cassava starch to biomass, carbohydrates, and acids by Aspergillus niger.
JABID. Tan, K.H. ; Ferguson, L.B.; Carlton, C. New York : Academic Press. Journal of applied biochemistry. Feb/Apr 1984. v. 6 (1/2). p. 80-90. Includes 12 references. (NAL Call No.: DNAL QD415.A1J63).

0063
Crop performance in complex mixtures: melon and okra in cassava--maize mixture.
Ikeorgu, J.E.G. ; Wahua, T.A.T.; Ezumah, H.C. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 63-66. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0064
Cryopreservation of germplasm of potato cassava, peanut and chickpea (Solanum tuberosum, Manihot esculenta, Arachis hypogaea, Cicer arietinum, gene banks).
Bajaj, Y.P.S. Tokyo : Japanese Association for Plant Tissue Culture, (1982?). Plant tissue culture 1982 : proceedings, 5th International Congress of Plant Tissue and Cell Culture held at Tokyo and Lake Yamanake, Japan, July 11-16, 1982 / edited by Akio Fujiwara. p. 799-800. ill. Includes references. (NAL Call No.: QK725.I49 1982).

0065
Cryopreservation of plant meristems: a novel approach for the preservation of germplasm in a disease-free condition (Pisum sativum, peas, Cicer arietinum, chickpeas, Fragaria 8X ananassa, strawberries, Manihot esculenta, cassava).
Kartha, K.K. Tokyo : Japanese Association for Plant Tissue Culture, (1982?). Plant tissue culture 1982 : proceedings, 5th International Congress of Plant Tissue and Cell Culture held at Tokyo and Lake Yamanake, Japan, July 11-16, 1982 / edited by Akio Fujiwara. p. 795-796. Includes references. (NAL Call No.: QK725.I49 1982).

0066
Cultural control of tetranychid spider mites infesting cassava: effect of the fertilizers.
Lal, S.S. Kariavattom, India : Dept. of Zoology, University of Kerala, 1980. Proceedings of the All India Symposium on Environmental Biology, December 27-29, 1977 / sponsored by the University Grants Commission and the University of Kerala ; (editorial committee, K.M. Alexander ... et al.). p. 86-91. 22 ref. (NAL Call No.: QH540.A42 1977).

0067
Current biological control research at IITA (International Institute of Tropical Agriculture) with special emphasis on the cassava mealybug (Phenacoccus manihoti Mat-Fer) (Central and West African countries).
Herren, H.R. Dakar, Senegal : USAID Regional Food Crop Protection Project, 1981. Biological control of pests : its

potential in West Africa : proceedings of an international conference held in Dakar, Senegal, February 9-13, 1981. p. 92-98. ill. Includes references. (NAL Call No.: SB933.3.B58 1981).

0068
Cyanide content in whole-root chips of ten cassava cultivars and its reduction by oven drying or sun drying on trays (Manihot esculenta).
Gomez, G. ; Valdivieso, M.; Cuesta, D. de la; Kawano, K. Oxford, Eng. : Blackwell Scientific. Journal of food technology. Feb 1984. v. 19 (1). p. 97-102. Includes references. (NAL Call No.: TP368.J6).

0069
Cyanide, protein and iodine interaction in the physiology and metabolism of rats (Cyanide intoxication in the cassava-consuming population).
Tewe, O.O.FOCHD. ; Maner, H.J. Oct 1982. v. 9 (3). Food chemistry. Oct 1982. v. 9 (3). p. 195-204. Includes references. (NAL Call No.: TX501.F6).

0070
Cyanogenic glucoside, protein interaction in cassava peel based rations: effect on some haematological parameters in growing pigs.
NURIE. Tewe, O.O. Los Altos, Calif. : Geron-X, Inc. Nutrition reports international. Aug 1984. v. 30 (2). p. 425-431. Includes 10 references. (NAL Call No.: DNAL RC620.A1N8).

0071
Deodorization of fermented cassava.
JAFCAU. Ohochuku, N.S. Washington, D.C. : American Chemical Society. Journal of agricultural and food chemistry. Mar/April 1985. v. 33 (2). p. 220-222. Includes references. (NAL Call No.: DNAL 381 J8223).

0072
Determination and detoxification of cyanide in cassava and cassava products (Manihot esculenta).
Fukuba, H. ; Igarashi, O.; Briones, C.M.; Mendoza, E.M.T. (S.l.) : Crop Science Soc. of Philippines & Philippine Council for Agric. and Resource Research. The Philippine journal of crop science. Dec 1982. v. 7 (3). p. 170-175. ill. Includes references. (NAL Call No.: SB13.P48).

0073
Determination of the nature of tetraploidy in cassava through meiotic analysis (Manihot esculenta, chromosome number, genetic improvement).
Armecin, C.F. ; Carpena, A.L. Leyte : Philippines : The College. Annals of tropical research : technical journal of the Visayas State College of Agriculture. Apr/June 1982. v. 4 (2). p. 77-84. ill. Includes references. (NAL Call No.: SB111.A2A5).

0074
The developers are coming--a case for genetic resources conservation in roots and corms for Africa (Cassava (Manihot esculenta), potatoes (Solanum tuberosum), sweet potatoes (Ipomoea batatas), yam (Dioscorea spp.)).
Okoli, O.O. Ibadan : International Institute of Tropical Agriculture, 1980. Crop genetic resources in Africa : proceedings, workshop organized by Association for the Advancement of Agricultural Sciences and International Institute of Tropical Agriculture, IITA Ibadan, Nigeria, 4-6 January 1978. p. 150-157. Includes references. (NAL Call No.: QH433.C76).

0075
Development of a rotary dryer for cassava (Stock feeds).
McPhee, J.E. Barton, A.C.T. : The Institution, 1982. Agricultural Engineering Conference 1982 : resources--efficient use and conservation, Armidale, NSW, 22-24 August 1982, preprints of papers / National Commit. Agric. Engineering of Institution of Engineers, Australia. p. 92-94. ill. Includes references. (NAL Call No.: S671.3.A36 1982).

0076
Diet patterns and nutritional intake in a Costa Rican community.
Sellers, Stephen G. New York, N.Y. : Gordon & Breach. Ecology of food and nutrition. March 1984. v. 14 (3). p. 205-218. ill., charts. Includes 20 references. (NAL Call No.: TX341.E3).

0077
Dietary goitrogens.
Boston : Little, Brown and Company. Lancet. June 19, 1982. v. 1 (8286). p. 1394-1395. 12 ref. (NAL Call No.: 448.8 L22).

0078
Differential effects on the cyanogenic glyoside content of fermenting cassava root pulp by beta-glucosidase and microbial activities (Manihot esculenta).
Maduagwu, E.N.TOLED. Amsterdam : Elsevier Biomedical. Toxicology letters. Mar 1983. v. 15 (4). p. 335-339. Includes references. (NAL Call No.: RA1190.T62).

0079
Distribution and severity of cassava mosaic in the Congo.
Massala, R. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 89. (NAL Call No.: DNAL SB210.T76T74 1983).

0080
Distribution of pigeon peas, cassava, coffee and grass roots in an Ultisol (Coffea arabica, Manihot esculenta, Cajanus cajan, implications for crop management, Puerto Rico).
Rivera, E.JAUPA. ; Silva, S.; Vicente-Chandler, J. Rio Piedras : University of Puerto Rico, Agricultural Experiment Station. The Journal of agriculture of the University of Puerto Rico. July 1983. v. 67 (3). p. 278-285. ill. Includes references. (NAL Call No.: 8 P832J).

0081
Distribution of stomata and trichomes in Cassava leaves (Manihot esculenta, tropics).
Bai, K.V.JRCRD. ; Jos, J.S. Trivandrum : Indian Society for Root Crops. Journal of root crops. 1981. v. 7 (1/2). p. 11-14. plates. Includes references. (NAL Call No.: SB209.A1J68).

0082
Diurnal course of CO2 (carbon dioxide) and water vapour exchange in Manihot esculenta Crantz var. cubana (Cassava, a carbon-3 pathway plant, and Saccharum officinarum, sugarcane, a carbon-4 pathway plant, photosynthesis).
San Jose, J.J.PHSYB. Praha : Czechoslovak Academy of Sciences. Photosynthetica. 1983. v. 17 (1). p. 12-19. Includes references. (NAL Call No.: QK882.A1P4).

0083
Economics on the control of spidermites on cassava (Eutetranychus orientalis, Oligonychus biharensis, Tetranychus cinnabarinus, Tetranychus neocaledonicus).
Pillai, K.S. ; Palaniswami, M.S. Trivandrum : Association for Advancement of Entomology, Dept. of Zoology, Univ. of Kerala. Entomon. Dec 1983. v. 8 (4). p. 373-375. Includes references. (NAL Call No.: QL461.E6).

0084
Effect of cassava-based diets varying in cyanide content on the performance and physiopathology of the African giant rat (Cricetomys gambianus Waterhouse).
Tewe, O.O. Amsterdam : Elsevier. Animal feed science and technology. Apr 1984. v. 11 (1). p. 1-9. Includes references. (NAL Call No.: SF95.A55).

0085
Effect of defatting on amylose contents, viscosity characteristics and organoleptic quality of cassava (Manihot-esculenta Crantz).
Raja, K.C.M.JFOTA. ; Abraham, E.; Mathew, A.G. Oxford : Blackwell Scientific. Journal of food technology. Dec 1982. v. 17 (6). p. 761-765. 8 ref. (NAL Call No.: TP368.J6).

0086
The effect of glutathione on the cohesiveness of pounded cassava, cocoyam, gari and yam.
Osuji, G.O.JFOTA. Oxford : Blackwell Scientific. Journal of food technology. June 1983. v. 18 (3). p. 265-270. Includes references. (NAL Call No.: TP368.J6).

0087
Effect of heat-moisture treatment on textural characteristics of cassava flour.
Abraham, T.CECHA. ; Raja, K.C.M.; Manoharan, E.P.; Mathew, A.G. St. Paul : American Association of Cereal Chemists. Cereal chemistry. Jan/Feb 1983. v. 60 (1). p. 7-8. ill. 6 ref. (NAL Call No.: 59.8 C33).

0088
Effect of palm oil on the use of cassava peel meal by rabbits (Manihot esculenta, thiocyanate).
Omole, T.A. ; Onwudike, O.O. Santo Domingo : Consejo Estatal del Azucar, Division de Ganaderia y Boyada. Tropical animal production. 1983. v. 8 (1). p. 27-32. Includes references. (NAL Call No.: SF95.T69).

0089
The effect of partial replacement of maize with cassava peel meal on layer performance.
NURIB. Obioha, F.C. ; Azubuike, G.O.; Ene, L.S.O.; Okereke, H.E.; Okoli, O.O. Los Altos, Calif. : Geron-X, Inc. Nutrition reports international. Dec 1984. v. 30 (6). p. 1423-1429. Includes 9 references. (NAL Call No.: DNAL RC620.A1N8).

0090
Effect of pruning treatment on physiological deterioration in cassava roots (Manihot esculenta).
Tanaka, Y. ; Data, E.S.; Lape, V.G.; Villegas, C.D.; Gorgonio, M. Tokyo : Agricultural Chemical Society of Japan. Agricultural and biological chemistry. Mar 1984. v. 48 (3). p. 739-743. Includes references. (NAL Call No.: 385 AG8B).

0091
The effect of root crops on nitrogen, calcium, phosphorus and magnesium utilization (Taro root, sweet potato, cassava).
Suzuki, K.NURIB. ; Kanke, Y.; Goto, S.; Kondo, N. Los Altos : Geron-X, Inc. Nutrition reports international. Jan 1983. v. 27 (1). p. 213-220. 11 ref. (NAL Call No.: RC620.A1N8).

0092
Effect of soil type, fertilization and mycorrhizal inoculation on NPK (nitrogen, potassium, phosphorus) uptake of cassava.
Almendras, A.S. ; Cruz, R.E. dela; Manguiat, I.J. Leyte : Philippines : The College. Annals of tropical research : technical journal of the Visayas State College of Agriculture. Apr/June 1982. v. 4 (2). p. 118-126. Includes references. (NAL Call No.: SB111.A2A5).

0093
Effect of temperature on dry matter production in young plants of cassava and rice.
Imai, K. ; Yoshida, T.; Takahashi, M.; Kanda, A.; Murata, Y. Ibaraki-ken, Japan : Nettai Nogyo Gakkai. Nettai nogyo = Japanese journal of tropical agriculture. June 1983. v. 27 (2). p. 107-113. ill. Includes references. (NAL Call No.: SB111.A2N43).

0094
The effect of variety and plant age on cyanide content, chemical composition and quality of cassava roots (Colombia).
Gomez, G.NURIB. ; Valdivieso, M. Los Altos : Geron-X, Inc. Nutrition reports international. Apr 1983. v. 27 (4). p. 857-865. Includes references. (NAL Call No.: RC620.A1N8).

0095
Effects of cassava meal on the hatchability of chicken eggs.
Ngoka, D.A. ; Chike, E.C.; Awoniyi, A.B.; Enyinnia, T.; Odurukwe, S.O. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 117-119. (NAL Call No.: DNAL SB210.T76T74 1983).

0096
Effects of fertilizer application on postembryonic development and reproduction of the cassava mealybug Phenacoccus manihoti .
Lema, K.M. ; Mahungu, N.M. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 97-98. (NAL Call No.: DNAL SB210.T76T74 1983).

0097
Effects of shade, nitrogen, and potassium on cassava.
Kasele, I.N. ; Hahn, S.K.; Oputa, C.O.; Vine, P.N. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 55-58. (NAL Call No.: DNAL SB210.T76T74 1983).

0098
Effects of soil fertility on cassava bacterial blight in Rwanda (Xanthomonas cassavae).
Butare, I. ; Banyangabose, F. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise. Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 53-55. (NAL Call No.: SB210.E15R66).

0099
Effects of solar radiation on growth of cassava (Manihot esculenta Crantz.). I. Canopy development and dry matter growth.
Fukai, S. ; Alcoy, A.B.; Llamelo, A.B.; Patterson, R.D. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Dec 1984. v. 9 (5). p. 347-360. Includes references. (NAL Call No.: DNAL SB183.F5).

0100
Effects of solar radiation on growth of cassava (Manihot esculenta Crantz.). II. Fibrous root length.
Aresta, R.B. ; Fukaf, S. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Dec 1984. v. 9 (5). p. 361-371. Includes references. (NAL Call No.: DNAL SB183.F5).

0101
Effects of various planting and harvesting times on the yield, HCN (hydrocyanic acid), dry-matter accumulation and starch content of four cassava varieties in a tropical rainforest region (Nigeria).
Kayode, G.O. Cambridge : Cambridge University Press. The Journal of agricultural science. Dec 1983. v. 101 (pt.3). p. 633-636. Includes references. (NAL Call No.: 10 J822).

0102
Environmental effects on growth and development of cassava (Manihot esculenta Crantz.) I. Crop development.
Keating, B.A. ; Evenson, J.P.; Fukai, S. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Dec 1982. v. 5 (4). p. 271-281. 2 p. ref. (NAL Call No.: SB183.F5).

0103
Environmental effects on growth and development of cassava (Manihot esculenta Crantz.). II. Crop growth rate and biomass yield.
Keating, B.A. ; Evenson, J.P.; Fukai, S. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Dec 1982. v. 5 (4). p. 283-292. ill. 2 p. ref. (NAL Call No.: SB183.F5).

0104
Environmental effects on growth and development of cassava (Manihot esculenta Crantz.). III. Assimilate distribution and storage organ yield.
Keating, B.A. ; Evenson, J.P.; Fukai, S. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Dec 1982. v. 5 (4). p. 293-303. ill. 2 p. ref. (NAL Call No.: SB183.F5).

0105
Epidmeiology of anthroacnose in cassava Transmitted by the insect pest Psendotherapus devastans .
Makamibila, C. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 73-78. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0106
Ethanol production from cassava and sago starch using Zymomonas mobilis.
BILED3. Rhee, S.K. ; Lee, G.M.; Han, Y.T.; Yusof, Z.A.M.; Han, M.H.; Lee, K.J. Kew, Eng. : Science and Technology Letters. Biotechnology letters. Sept 1984. v. 6 (9). p. 615-620. Includes references. (NAL Call No.: DNAL QR53.B56).

0107
Evaluation and acceptability of cassava cultivars (Puerto Rico).
Ramirez, O.D.JAUPA. ; Green, J.J.; Caloni, I.B. de. Rio Piedras : University of Puerto Rico, Agricultural Experiment Station. The Journal of agriculture of the University of Puerto Rico. Jan 1983. v. 67 (1). p. 16-21. Includes references. (NAL Call No.: 8 P832J).

0108
Evaluation of cassava root meal prepared from low- or high-cyanide cultivars in pig and broiler diets (Manihot esculenta).
Gomez, G.NURIB. ; Valdivieso, M.; Santos, J.; Hoyos, C. Los Altos : Geron-X, Inc. Nutrition reports international. Oct 1983. v. 28 (4). p. 593-704. Includes references. (NAL Call No.: RC620.A1N8).

0109
An evaluation of enzymic and autolytic assays for cyanide in cassava (Manihot esculenta, Crantz).
Cooke, R.D.JSFAA. ; Cruz, E.M. de la. Oxford : Blackwell Scientific Publications. Journal of the science of food and agriculture. Oct 1982. v. 33 (10). p. 1001-1009. Includes references. (NAL Call No.: 382 S012).

0110
Evaluation of methionine supplementation to diets containing cassava meal for swine.
Gomez, G. ; Santos, J.; Valdivieso, M. Champaign, Ill. : American Society of Animal Science. Journal of animal science. Apr 1984. v. 58 (4). p. 812-820. Includes references. (NAL Call No.: 49 J82).

0111
Experimental study of mechanisms responsible for mental retardation resulting from cassava ingestion (Zaire).
Colinet, E. ; Ermans, A.M.; Delange, F. Ottawa : International Development Research Centre, c1982. Nutritional factors involved in the goitrogenic action of cassava / editors, F. Delange, F.B. Iteke, and A.M. Ermans. p. 74-83. (NAL Call No.: RC656.3.N88).

0112
Fatty acids, carbohydrates and crude protein in twenty cassava cultivars (Manihot esculenta Crantz).
JJASD. Teles, F.F.F. ; Oliveira, J.S.; Silveira, A.J.; Batista, C.M.; Stull, J.W. Champaign, Ill. : The Society. Journal of the American Oil Chemists' Society. Apr 1985. v. 62 (4). p. 706-708. Includes 10 references. (NAL Call No.: DNAL 307.8 J82).

0113
Fermented cassava: odor active components (Manihot esculanta).
Ohochuku, N.S.JAFCA. ; Ballantine, J.A. Washington : American Chemical Society. Journal of agricultural and food chemistry. Nov/Dec 1983. v. 31 (6). p. 1386-1387. Includes references. (NAL Call No.: 381 J8223).

0114
Field assessment and inheritance of resistance to cassava bacterial blight (Manihot esculenta, Xanthomonas campestris).
Umemura, Y.CRPSAY. : Kawano, K. Madison : Crop Science Society of America. Crop science. Nov/Dec 1983. v. 23 (6). p. 1127-1132. ill. Includes references. (NAL Call No.: 64.8 C883).

0115
Field problems in cassava / J.C. Lozano ... (et al.).
: Lozano, J. C. Cali, Colombia Centro Internacional de Agricultura Tropical 1981. "October 1981.". 205 p. : col. ill. ; 18 cm. -. (NAL Call No.: SB608.C33F5 1981).

0116
Foliage and root yields of cassava (Manihot esculenta, Crantz) under different planting densities and frequencies of cutting.
Pezo, D. ; Benavides, J.; Ruiz, A. Santo Domingo : Centro de Investigaciones Pecuarias (CENIP). Tropical animal production. 1984. v. 9 (3). p. 239-250. ill. Includes references. (NAL Call No.: DNAL SF95.T69).

0117
Food, feed or fuel? Agricultural development alternatives and the case for technological innovation in Cassava (Manihot esculenta Crantz) cultivation.
Box, L.ZALSA. Frankfurt/Main, W. Ger. : DLG-Verlag. Quarterly journal of international agriculture = Zeitschrift fur auslandische Landwirtschaft. 1982. v. 21 (Special issue 2). p. 34-48. Includes references. (NAL Call No.: 281.8 Z32).

0118
Food production and population size in the Lesser Antilles (Manihot esculenta, manioc, pre-Columbian Indian population, animal protein resources).
Levin, S. New York : Plenum Press. Human ecology. Sept 1983. v. 11 (3). p. 321-338. maps. Includes references. (NAL Call No.: HM206.A1H8).

0119
Gasification of cassava bagasse refuse.
Miura, M. ; Nikawa, K.; Nishizaki, H.; Arida, V.P. Tokyo : The Society. Mokuzai Gakkaishi = Journal of the Japan Wood Research Society. 1984. v. 30 (4). p. 340-345. ill. (NAL Call No.: 99.9 J2793).

0120
Genetic parameters of cassava.
Mahungu, N.M. ; Chheda, H.R.; Hahn, S.K.; Fatokun, C.A. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 37-40. (NAL Call No.: DNAL SB210.T76T74 1983).

0121
Genetic study on post-harvest root deterioration in cassava.
KASUA. Kawano, K. ; Rojanaridpiched, C. Bangkok : Kasetsart University. The Kasetsart journal : natural sciences. July/Dec 1983. v. 17 (2). p. 14-26. ill. Includes 16 references. (NAL Call No.: DNAL 22.5 K153).

0122
Growth and development of cassava (Manihot esculenta Crantz) genotypes under shade in a coconut garden.
TURRA. Ramanujam, T. ; Nair, G.M.; Indira, P. San Jose : Instituto Interamericano de Ciencias Agricolas. Turrialba. July/Sep 1984. v. 34 (3). p. 267-274. ill. Includes 9 references. (NAL Call No.: DNAL 8 T86).

0123
Histopathology of cassava leaf infected by Xanthomonas campestris pathovar cassavae (Africa).
Ikotun, T. Brasilia : Sociedade Brasileira de Fitopatologia. Fitopatologia brasileira. June 1983. v. 8 (2). p. 215-221. ill. Includes references. (NAL Call No.: SB599.F55).

0124
Historical perspectives of cassava breeding in Africa.
Beck, B.D.A. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 13-18. (NAL Call No.: SB210.E15R66).

0125
Hydrocyanic acid levels in fermented cassava (Manihot esculenta).
El Tinay, A.H. ; Bureng, P.L.; Yas, E.A.E. Oxford, Eng. : Blackwell Scientific. Journal of food technology. Apr 1984. v. 19 (2). p. 197-202. Includes references. (NAL Call No.: TP368.J6).

0126
The impact of the invention of a mechanical gari processing machine on cultural aspects of gari consumption and cassava farming in Nigeria.
Amadi, B.C. Oxford : Institute of Agricultural Economics. Oxford agrarian studies. 1983. v. 12. p. 94-99. (NAL Call No.: HD1922.09).

0127
In vitro flowering in cassava (Manihot esculenta Crantz).
Tang, A.F. ; Cappadocia, M.; Byrne, D. The Hague : M. Nijhoff/W. Junk. Plant cell, tissue and organ culture. 1983. v. 2 (3). p. 199-206. ill. Includes references. (NAL Call No.: QK725.P53).

0128
"In vitro" inhibition of growth of Xanthomonas campestris pathovar manihotis by antagonists (Cassava bacterial blight disease, Nigeria).
Musere, E. ; Ikotun, T. Brasilia : Sociedade Brasileira de Fitopatologia. Fitopatologia brasileira. Oct 1983. v. 8 (3). p. 467-472. Includes references. (NAL Call No.: SB599.F55).

0129
Increasing and stabilizing cassava and sweetpotato productivity by disease resistance and crop hygiene (Virus and bacterial diseases, Africa).
Terry, E.R. ; Hahn, S.K. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 47-52. (NAL Call No.: SB210.E15R66).

0130
Influence of age of plants on cassava bacterial blight incidence and development (Xanthomonas manihotis, Kerala).
Cherian, M.T.ARJKA. ; Mathew, J. Kerala : Kerala Agricultural University. Agricultural research journal of Kerala. June 1981. v. 19 (pt.1). p. 116-117. 5 ref. (NAL Call No.: 22 AG823).

0131
Influence of crop rotation and intercropping of cassava with legumes on VA (vesicular-arbuscular) mycorrhizal symbiosis of cassava (Manihot esculenta, nutrition, yields, Colombia).
Sieverding, E. ; Leihner, D.E. The Hague : Martinus Nijhoff. Plant and soil. 1984. v. 80 (1). p. 143-146. Includes 11 references. (NAL Call No.: 450 P696).

0132
Influence of differences in leaf anatomy on net photosynthetic rates of some cultivars of cassava.
El-Sharkawy, M.A. ; Cock, J.H.; De Cadena, G. The Hague : Martinus Nijhoff/W. Junk. Photosynthesis research. 1984. v. 5 (3). p. 235-242. Includes references. (NAL Call No.: QK882.P58).

0133
Influence of methionine and palm oil supplementation of cassava flour-soybean meal diets on performance, nitrogen retention and rate of tissue deposition in weanling pigs.
Balogun, O.O. ; Fetuga, B.L. Amsterdam : Elsevier Scientific. Livestock production science. June 1984. v. 11 (3). p. 315-327. Includes references. (NAL Call No.: SF1.L5).

0134
The influence of potassium, nitrogen, phosphorus and magnesium fertilization on anthracnose disease and tuber yield of cassava.
Njoku, B.B. ; Arene, O.B. Worblaufen-Bern, Switzerland : International Potash Institute, 1980? . Potassium Workshop : Ibadan/Nigeria, October 1980 / jointly organized by the International Institute of Tropical Agriculture and the International Potash Institute. p. 193-198. Includes 13 references. (NAL Call No.: DNAL S592.6.P6P62 1980).

0135
Influence of water deficits on gas-exchange and the leaf area development of cassava cultivars.
JEBOA6. Palta, J.A. Oxford : Clarendon Press. Journal of experimental botany. Oct 1984. v. 35 (159). p. 1441-1449. ill. Includes 24 references. (NAL Call No.: DNAL 450 J8224).

0136
Intercropping in cassava.
INFAA. Prabhakar, M. ; Nair, G.M. New Delhi : Indian Council of Agricultural Research. Indian farming. Apr 1984. v. 34 (1). p. 9-10. ill. (NAL Call No.: DNAL 22 IN283).

0137
Investigation of the beta-carotene content of yellow varieties of cassava (Manihotesculenta Crantz).
McDowell, I. ; Oduro, K.A. London : John Libbey and Co. Journal of plant foods. 1983. v. 5 (3). p. 169-171. Includes references. (NAL Call No.: QP141.A1P55).

0138
Kenya: avoiding cassava mosaic disease (Manihot esculenta).
Bock, K.R.SPANA. Foston : J.G.R. Stevens. Span; progress in agriculture. 1982. v. 25 (1). p. 11-13. ill. Includes references. (NAL Call No.: 464.8 SP2).

0139
Kenya (Cassava production, for human consumption, animal feed).
Bruijn, G.H. de. ; Guthrie, E.J. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 95-98. (NAL Call No.: SB210.E15R66).

0140
A Literature review and research recommendations on cassava (Manihot esculenta Crantz) /by University of Georgia team, C. H. Hendershott, chairman. -.
; Hendershott, C. H. Athens : University of Georgia , 1972. "AID contract no. csd/2497."~ "March 1972.". xii, 326 p. : ill. ; 28 cm. Bibliography: p. 269 -326. (NAL Call No.: DNAL SB211.C3G46).

0141
Lysine in cassava based diets. I. A note on the effect of heat on digestibility and available lysine.
FOCHD. Adewusi, S.R.A. ; Oke, O.L. London, Eng. : Elsevier Applied Science Publishers. Food chemistry. 1984. v. 15 (4). p. 261-268. Includes references. (NAL Call No.: DNAL TX501.F6).

0142
Management and evaluation of intercropping systems with cassava /Dietrich Leihner. -.
Leihner, Dietrich. Cali, Colombia : Centro Internacional de Agricultura Tropical, 1983. "December 1983.". vi, 70 p. : ill. (some col.) ; 22 cm. Bibliography: p. 67-70. (NAL Call No.: DNAL SB211.C3L45).

0143
Mechanised cassava production investigations in Nigeria (Planting and harvesting equipment).
Makanjuola, G.A. ; Moldenhawer, A. St. Joseph, Mich. : The Society. Paper - American Society of Agricultural Engineers (Microfiche collection). 1984. Paper presented at the 1984 Summer Meeting of the American Society of Agricultural Engineers. Available for purchase from: The American Society of Agricultural Engineers, Order Dept., 2950 Niles Road, St. Joseph, Michigan 49085. Telephone the Order Dept. at (616) 429-0300 for information and prices. 1984. (fiche no. 84-1068). 1 microfiche : ill. Includes references. (NAL Call No.: FICHE S-72).

0144
Microbial breakdown of linamarin in fermenting cassava pulp.
Ejiofor, M.A.N. ; Okafor, N. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon,

14-19 Aug 1983 / editors: E.R. Terr. p. 105-107. (NAL Call No.: DNAL SB210.T76T74 1983).

0145
Microbial spoilage of packaged gari in storage.
MILEDM. Ekundayo, C.A. Cambridge : Faculty Press. Microbios letters. 1984. v. 26 (103/104). p. 145-150. Includes references. (NAL Call No.: DNAL QR1.M49).

0146
Mites attacking cassava in southern Florida: damage descriptions and density estimate methods (Mononychellus caribbeanae, Tetranychus urticae, Panonychus citrus).
Pena, J.E. ; Waddill, V.H.; O'Hair, S.K. Gainesville, Fla. : Florida Entomological Society. Florida entomologist. Mar 1984. v. 67 (1). p. 141-146. ill. Includes references. (NAL Call No.: 420 F662).

0147
Mulch and irrigation effects on plant-water relations and performance of cassava and sweet potato (Ipomoea batatas, Manihot esculenta, yields).
Ghuman, B.S. ; Lal, R. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. July 1983. v. 7 (1). p. 13-29. ill. Includes references. (NAL Call No.: SB183.F5).

0148
Mycorrhizal inoculation, a cultural practice with potential in cassava cultivation.
Howeler, R.H. Cali : Centro Internacional de Agricultura Tropical. Cassava newsletter. Nov 1983. v. 7 (2). p. 4-6. ill. (NAL Call No.: SB211.C3C38).

0149
Nematicidal activities of aqueous extracts of "bitter" cassava peel and tung cake against Meloidogyne javanica (Treub) Chitwood (Manihot esculenta, Aleurites montana, root-galling in tomato plants).
Saka, V.W. ; Makina, D.W. Zomba, Malawi : University of Malawi, School of Science. Luso : journal of science and technology. 1983. v. 4 (1). p. 31-37. Includes references. (NAL Call No.: Q180.A5M3).

0150
Nematodes of cassava, Manihot esculenta Crantz (Reniform and root-knot nematodes, tolerant cultivars, tropics).
McSorley, R. ; O'Hair, S.K.; Parrado, J.L. Auburn, Ala. : Organization of Tropical American Nematologists. Nematropica. Dec 1983. Literature review. v. 13 (2). p. 261-287. ill. Includes references. (NAL Call No.: SB998.N4N4).

0151
Net social profitability and domestic resource cost of eight agricultural commodities in Thailand.
Lokaphadhana, T. ; Welsch, D.E. St. Paul : The Department. Staff paper P - University of Minnesota, Dept. of Agricultural and Applied Economics. Aug 1982. Aug 1982. (82-11). 62 p. Includes 25 references. (NAL Call No.: HD1761.A1M5).

0152
A note on the digestibilities of pig diets containing fermented cassava-manure (Feed composition).
Ong, H.K.MAGJA. ; Hutagalung, R.I. Kuala Lumpur : Ministry of Agriculture. The Malaysian agricultural journal. 1981. v. 53 (1). p. 52-57. 3 p. ref. (NAL Call No.: 22.5 F312).

0153
Nucleotide sequence of cassava latent virus DNA.
Stanley, J.NATUA. ; Gay, M.R. Basingstoke : Macmillan Journals. Nature. Jan 20/26, 1983. v. 301 (5897). p. 260-262. ill. Includes references. (NAL Call No.: 472 N21).

0154
Nutrient and dry matter contents of intensively managed cassava grown on an Ultisol (Manihot esculenta, fertilizer levels, yields, Puerto Rico).
Irizarry, H.JAUPA. ; Rivera, E. Rio Piedras : University of Puerto Rico, Agricultural Experiment Station. The Journal of agriculture of the University of Puerto Rico. July 1983. v. 67 (3). p. 213-220. ill. Includes references. (NAL Call No.: 8 P832J).

0155
Nutrient characterization of some feedstuffs of Sri Lanka (Crude protein of cassava, sesame, coconut oil, rubber seed, sweetpotato leaf meal).
Ravindran, V. ; Kornegay, E.T.; Webb, K.E. Jr.; Rajaguru, A.S.B. (Peradeniya) : The Society. Journal of the National Agricultural Society of Ceylon. 1982. v. 19. p. 19-32. Includes references. (NAL Call No.: S19.N3).

0156
The nutritional value of cassava root meal in laying hen diets (Chickens).
Stevenson, M.H. Oxford, Eng. : Blackwell Scientific Publications. Journal of the science of food and agriculture. Jan 1984. v. 35 (1). p. 36-40. Includes references. (NAL Call No.: 382 SO12).

0157
The nutritional value of dried cassava root meal in broiler diets.
Stevenson, M.H.JSFAA. ; Jackson, N. Oxford : Blackwell Scientific Publications. Journal of the science of food and agriculture. Dec 1983. v. 34 (12). p. 1361-1367. Includes references. (NAL Call No.: 382 SO12).

0158
The occurrence of a new disease, Xanthomonas manihotis, on cassava in the Sudan (Manihot esculenta).
Kwaje, S.L. The Hague : International Society for Horticultural Science. Acta horticulturea. Apr 1984. Paper presented at the "Eighth African Symposium on Horticultural Crops," 20-24 March, 1983, Wad Nedani, Sudan. Apr 1984. (143). p. 421-426. Includes references. (NAL Call No.: 80 AC82).

0159
Partial replacement value of garri (fermented, fried cassava meal) for corn in grower and layer diets.
Nwokolo, E. Genova : (s.n.). Zootecnica international. Apr 1984. Apr 1984. (4). p. 50-52. (NAL Call No.: SF600.Z6).

0160
Performance, carcass characteristics and economy of production of growing pigs on varying dietary cassava peel levels (Nigeria).
Tewe, O.O.NURIB. ; Oke, O.L. Los Altos : Geron-X, Inc. Nutrition reports international. Aug 1983. v. 28 (2). p. 235-243. Includes references. (NAL Call No.: RC620.A1N8).

0161
Performance of a cassava peeling machine.
Nwokedi, P.M. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 108-110. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0162
Pest control for cassava and sweetpotato (in Africa).
Leuschner, K. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 60-64. ill. (NAL Call No.: SB210.E15R66).

0163
The photosynthesis and estimation of productivity of cassava (Upland crops, in tropical areas, Indonesia).
Tsuno, Y. ; Taniyama, T.; Suprapto, H. Tokyo : Nihon Sakumotsu Gakkai. Nihon Sakumotsu Gakkai kiji = Japanese journal of crop science. Dec 1983. v. 52 (4). p. 484-492. ill. Includes references. (NAL Call No.: 22.5 C88).

0164
Photosynthesis, transpiration, and leaf diffusive conductance of the cassava leaf in response to water stress (Manihot esculenta).
Palta, J.A.CJBOA. Ottawa : National Research Council of Canada. Canadian journal of botany = Journal canadien de botanique. Jan 1983. v. 61 (1). p. 373-376. Includes references. (NAL Call No.: 470 C16C).

0165
Photosynthetic responses of cassava cultivars (Manihot esculenta Crantz) from different habitats to temperature.
El-Sharkawy, M.A. ; Cock, J.H.; Held, A.A. The Hague : Martinus Nijhoff/W. Junk. Photosynthesis research. 1984. v. 5 (3). p. 243-250. ill. Includes references. (NAL Call No.: QK882.P58).

0166
Physiological deterioration and ethylene production in cassava roots after harvest, in relation with pruning treatment.
NISAAJ. Hirose, S. ; Data, E.S.; Tanaka, Y.; Uritani, I. Tokyo : Nihon Sakumotsu Gakkai. Nihon Sakumotsu Gakkai kiji = Japanese journal of crop science. Sept 1984. v. 53 (3). p. 282-289. ill. Includes 27 references. (NAL Call No.: DNAL 22.5 C88).

0167
The Possible role of cassava in the thiocyanate level of pregnant women.
Oyelola, O.O.NURIB. ; Ayangade, S.O.; Oke, O.L. Los Altos : Geron-X, Inc. Nutrition reports international. Sept 1983. v. 28 (3). p. 585-592. charts. Includes 13 references. (NAL Call No.: RC620.A1N8).

0168
Potassium and magnesium responses of cassava grown in Ultisol in southern Nigeria.
Kang, B.T. The Hague : Nijhoff. Fertilizer research. 1984. v.5 (4). p. 403-410. ill. Includes 9 references. (NAL Call No.: S631.F422).

0169
Potentials and limitations of mycorrhizal inoculation illustrated by experiments with field-grown cassava (Manihot esculenta inoculated with Glomus manihotis fungus).
Howeler, R.H.PLSOA2. ; Sieverding, E. The Hague : Martinus Nijhoff. Plant and soil. 1983. v. 75 (2). p. 245-261. Includes references. (NAL Call No.: 450 P696).

0170
A preliminary study on preplant cassava stem storage on tuber yield (Manihot esculenta, in Nigeria).
Ogbueni, S.N.JRCRD. Trivandrum : Indian Society for Root Crops. Journal of root crops. 1981. v. 7 (1/2). p. 65-66. Includes references. (NAL Call No.: SB209.A1J68).

0171
The processing of cassava meal for chicks.
NURIB. Wyllie, D. ; Mtui, M.; Oloya, J.D.; Kategile, J.A. Los Altos, Calif. : Geron-X, Inc. Nutrition reports international. Nov 1984. v. 30 (5). p. 1127-1136. Includes 20 references. (NAL Call No.: DNAL RC620.A1N8).

0172
Production of annual food crops in the Amazon (Colombia, Ecuador, Brazil, Peru, maize, soybeans, peanuts, cowpeas, cassava).
Valverde S, C. ; Bandy, D.E. Cali, Colombia : Centro Internacional de Agricultura Tropical, 1982. Amazonia : agriculture and land use research / editor, S.B. Hecht ; proceedings of the international conference sponsored by the Rockefeller Foundation ... (et al.). p. 243-280. Includes references. (NAL Call No.: S401.A42).

0173
Production potentials of major tropical root and tuber crops.
Doku, E.V. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 19-24. (NAL Call No.: DNAL SB210.T76T74 1983).

0174
Productive potential of an annual intercropping scheme in the Amazon.
Wade, M.K. ; Sanchez, P.A. Amsterdam : Elsevier Scientific Publishing Company. Field crops research. Nov 1984. v. 9 (3/4). p. 253-263. Includes references. (NAL Call No.: DNAL SB183.F5).

0175
Productivity of cassava, Manihot esculenta Crantz, in a clayey, kaolinitic, isohyperthermic, paleudult (Antipolo clay) (Different rates of lime and fertilizers on yield).
Ramos, B.B. ; Mojica, P.S. (S.l.) : Crop Science Soc. of Philippines & Philippine Council for Agric. and Resource Research. The Philippine journal of crop science. Aug 1982. v. 7 (2). p. 123-127. ill. Includes references. (NAL Call No.: SB13.P48).

0176
Protein contents of cassava cultivars and its hybrid with wild manihot species (Brazil).
Nassar, M.A.N.TURRA. ; Dorea, J.G. San Jose : Instituto Interamericano de Ciencias Agricolas, Turrialba. Oct/Dec 1982. v. 32 (4). p. 429-432. Includes references. (NAL Call No.: 8 T86).

0177
Protein enrichment of starchy materials by solid state fermentation (Single cell protein for animal feeds from cassava, potato or banana residues).
Senez, J.C. London : Applied Science Publishers, 1983. Production and feeding of single cell protein / edited by M.P. Ferranti and A. Fiechter. p. 101-103. Includes references. (NAL Call No.: TP453.P7C6 1983).

0178
Rapid multiplication of cassava by direct planting.
Dahniyua, N.T. ; Kallin, S.N. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 53-54. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0179
A rapid non-destructive method for the estimation of leaf areas in cassava.
ANBOA4. Lockard, R.G. ; Lockard, J.M.; Wounuah, D.D. London : Academic Press. Annals of botany. Jan 1985. v. 55 (1). p. 125-128. Includes references. (NAL Call No.: DNAL 450 AN7).

0180
Recent trends in European Community and West German starch industries.
STARDD. Kempf, W. Weinheim, W. Ger. : Verlag Chemie. Starch = Starke. Oct 1984. v. 36 (10). p. 33-341. ill. Includes 14 references. (NAL Call No.: DNAL 309 ST22).

0181
Relation between respiration and post-harvest deterioration in cassava roots (Manihot esculenta).
Hirose, S. ; Data, E.S.; Quevedo, M.A.; Uritani, I. Tokyo : Nihon Sakumotsu Gakkai, Nihon Sakumotsu Gakkai kiji = Japanese journal of crop science. June 1984. v. 53 (2). p. 187-196. ill. Includes references. (NAL Call No.: 22.5 C88).

0182
Relationship between cassava mosaic disease spread and whitefly (Bemisia tabaci Gen.) population under different insecticide treatments (India).
Nair, N.G.JRCRD. Trivandrum : Indian Society for Root Crops. Journal of root crops. 1981. v. 7 (1/2). p. 15-19. ill. Includes references. (NAL Call No.: SB209.A1J68).

0183
The relationship between methods of making cassava flour and coumarin formation during drying (Manihot esculenta).
Flores, D.M.NSKGA. ; Garcia, V.V.; Uritani, I. Tokyo : The Society. Nippon Shokuhin Kogyo Gakkai shi = Journal of Japanese Society of Food Science and Technology. 1983. v. 30 (3). p. 175-177. Includes references. (NAL Call No.: 388 J822).

0184
Relationship between secondary metabolism changes in cassava root tissue and physiological deterioration (Manihot esculenta).
Uritani, I.ABCHA. ; Data, E.S.; Villegas, R.J.; Flores, P.; Hirose, S. Tokyo : Agricultural Chemical Society of Japan. Agricultural and biological chemistry. July 1983. v. 47 (7). p.

1591-1598. ill. Includes references. (NAL Call No.: 385 AG8B).

0185
Relationship between the altitudinal limit of cassava and soil temperature in Papua New Guinea.
TAGLA, Bourke, R.M. ; Evenson, J.P.; Keating, B.A. Guildford : Butterworth Scientific. Tropical agriculture. Oct 1984. v. 61 (4). p. 315-316. Includes references. (NAL Call No.: DNAL 26 T754).

0186
Relationships between cassava root yields and crop infestations by the mealybug, Phenacoccus manihoti (Manihot esculenta, Africa, Zaire).
Nwanze, K.F.PANSC. London : Centre for Overseas Pest Research. Tropical pest management. Mar 1982. v. 28 (1). p. 27-32. ill. Includes references. (NAL Call No.: SB950.A1P3).

0187
Relative sweetness of high fructose cassava syrup, high fructose corn syrup and sucrose.
Khalid, N.M. Serdang, Selangor : Malaysian Agricultural Research and Development Institute. MARDI research bulletin. Apr 1982. v. 10 (1). p. 105-109. Includes 7 references. (NAL Call No.: S19.M37).

0188
The reproductive, growth and carcass traits of rabbits fed cassava-based diets supplemented with palm oil (Manihot esculenta).
Fomunyam, R.T. ; Adegbola, A.A.; Oke, O.L. 1984. v. 14 (4). Food chemistry. 1984. v. 14 (4). p. 263-272. ill. Includes references. (NAL Call No.: TX501.F6).

0189
Reproductive performance of sows/gilts fed cassava (Landrace X Large White crossbreds, linamarin).
Makhambera, P.E. ; Kanyenda, E.E. Zomba, Malawi : University of Malawi, School of Science. Luso : journal of science and technology. 1983. v. 4 (1). p. 47-51. Includes references. (NAL Call No.: Q180.A5M3).

0190
Research priorities, techniques, and accomplishments in cassava breeding at IITA (Internatinal Institute of Tropical Agriculture).
Hahn, S.K. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 19-20. ill. (NAL Call No.: SB210.E15R66).

0191
Response of cassava to fertilizers and town refuse under continuous cropping.
Odurukwe, S.O. ; Oji, U.I. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa ; proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 51-52. (NAL Call No.: DNAL SB210.T76T74 1983).

0192
The role of insects in the productivity decline of cassava (Manihot esculenta Crantz) on a slash and burn site in the Amazon territory of Venezuela.
Montagnini, F.AGEND. ; Jordan, C.F. Amsterdam : Elsevier. Agriculture ecosystems & environment. May 1983. v. 9 (3). p. 293-301. Includes references. (NAL Call No.: S601.A34).

0193
Role of the balance between the dietary supplies of iodine and thiocyanate in the etiology of endemic goitre in the Ubangi area (Cassava).
Courtois, P. ; Bourdoux, P.; Lagasse, R.; Ermans, A.M.; Delange, F. Ottawa : International Development Research Centre, c1982. Nutritional factors involved in the goitrogenic action of cassava / editors, F. Delange, F.B. Iteke, and A.M. Ermans. p. 65-69. map. (NAL Call No.: RC656.3.N88).

0194
Root and stake production of cassava at different populations and subsequent yield evaluation of stakes (Manihot esculenta).
Villamayor, F.G. Jr. (S.l.) : Crop Science Soc. of Philippines & Philippine Council for Agric. and Resource Research. The Philippine journal of crop science. Apr 1983. v. 8 (1). p. 23-25. Includes references. (NAL Call No.: SB13.P48).

0195
Root cation exchange capacity as an index of yielding ability in cassava and sweetpotato (Manihot esculenta, Ipomoea batatas).
Nair, P.G.JRCRD. ; Kumar, B.M.; Thomas, P.K.; Rajendran, N. Trivandrum : Indian Society for Root Crops. Journal of root crops. 1981. v. 7 (1/2). p. 5-9. ill. Includes references. (NAL Call No.: SB209.A1J68).

0196
Root crop evaluation, selection and improvement in Florida for energy applications (Arrowroot, Brassica, cassava, chicory, cocoyam, fodder beet, fodder carrot, Jerusalem artichoke, jicama, sweetpotato and taro.
O'Hair, S.K. Chicago : The Institute, c1982. Energy from biomass and wastes VI : symposium, January 25-29, 1982, Lake Buena Vista, Florida / symposium chairman D.L. Klass ; sponsored by the Institute of Gas Technology. p. 135-165. Includes references. (NAL Call No.:

TP360.E544).

0197
Saccharification of cassava (Manihot esculenta) with millet amylase.
Opoku, A. ; Uraih, N. Berlin, E. Ger. : Akademie-Verlag. Acta biotechnologica. 1983. v. 3 (1). p. 53-57. Includes references. (NAL Call No.: R856.A1A32).

0198
Scopoletin involvement in post-harvest physiological deterioration of cassava root (Manihot esculenta Crantz).
JEBOA6. Wheatley, C.C. ; Schwabe, W.W. Oxford : Clarendon Press. Journal of experimental botany. May 1985. v. 36 (166). p. 783-791. Includes references. (NAL Call No.: DNAL 450 J8224).

0199
Seasonal fluctuation of adult population of the whitefly, Bemisia tabaci on cassava (Kenya).
Seif, A.A. Oxford : Pergamon Press. Insect science and its application. 1981. v. 1 (4). p. 363-364. Includes references. (NAL Call No.: QL461.I57).

0200
Selection in cassava seedlings (Manihot esculenta).
Bueno, A. Brasilia, Brazil : Empresa Brasileira de Pesquisa Agropecuaria. Pesquisa agropecuaria brasileira. 1983. v. 18 (9). p. 997-1000. Includes references. (NAL Call No.: S15.P452).

0201
The separation of solids from the liquefied mash of cassava tuber and continuous saccharification by immobilized glucoamylase.
Maeda, H.EJAMA. ; Kajiwara, S.; Quiroz Araujo, N. Berlin, W. Ger. : Springer International. European journal of applied microbiology and biotechnology. 1982. v. 16 (2/3). p. 92-98. 11 ref. (NAL Call No.: QR1.E9).

0202
Sequence of occurrence of microflora in stored cassava tubers (Bacterial and fungal diseases).
Philip, S.ARJKA. Kerala : Kerala Agricultural University. Agricultural research journal of Kerala. June 1981. v. 19 (pt.1). p. 126-127. 3 ref. (NAL Call No.: 22 AG823).

0203
Serum and tissue thiocyanate concentrations in growing pigs fed cassava peel or corn based diets containing graded protein levels.
TOLED5. Tewe, O.O. Amsterdam : Elsevier Science Publishers. Toxicology letters. Nov 1984. v. 23 (2). p. 169-176. Includes 13 references. (NAL Call No.: DNAL RA1190.T62).

0204
Simulation of the continuous fermentation of manioc hydrolysate (Ethanol from biomass, Saccharomyces cerevisiae, Brazil).
Bonomi, A. ; Aboutboul, H.; Schmidell, W. New York : Wiley, c1981. Third Symposium on Biotechnology in Energy Production and Conservation : proceedings, Gatlinburg, Tenn., May 12-15, 1981 / sponsored by Dept. of Energy and Oak Ridge National Laboratory ; editor, C.D. Scott. p. 333-357. 16 ref. (NAL Call No.: TP995.A2S9 1981).

0205
Soil-conserving techniques in cassava and yam production.
Vine, P.N. ; Ajayi, O.B.; Mitchozounou, D.M.; Hounkpatin, E.J.; Hounkpevi, T. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 67-70. (NAL Call No.: DNAL SB210.T76T74 1983).

0206
Solid state fermentation of cassava with Rhizopus oligosporus NRRL 2710 (Production of single cell protein for food and feed).
Ramos-Valdivia, A. ; Torre, M. de la; Casas-Campillo, C. London : Applied Science Publishers, 1983. Production and feeding of single cell protein / edited by M.P. Ferranti and A. Fiechter. p. 104-111. Includes references. (NAL Call No.: TP453.P7C6 1983).

0207
Some aspects of the role of cyanogenic glycosides in nutrition.
Oke, O.L.WRNDA. Basel : S. Karger. World review of nutrition and dietetics. 1979. Literature review. v. 33. p. 70-103. ill., charts. Includes bibliographic references. (NAL Call No.: 389.1 W892).

0208
Some findings in leaf characters of cassava varieties.
Oka, M. ; Matsuda, T. Ibaraki, Japan : Tropical Agriculture Research Center, Ministry of Agric., Forestry and Fisheries. JARQ, Japan agricultural research quarterly. Aug 1983. v. 17 (1). p. 69-72. ill. Includes references. (NAL Call No.: S19.J3).

0209
Some flavouring constituents of cassava and of processed cassava products (Manihot esculenta).
Dougan, J.JSFAA. ; Robinson, J.M.; Sumar, S.; Howard, G.E.; Coursey, D.G. Oxford : Blackwell Scientific Publications. Journal of the science of food and agriculture. Aug 1983. v. 34 (8). p. 874-884. Includes references. (NAL Call No.: 382 S012).

0210
Some observations on post-harvest deteriorations of cassava (Manihot esculenta Crantz) roots.
Hirose, S. ; Data, E.S.; Uritani, I. Ibaraki-ken, Japan : Nettai Nogyo Gakkai. Nettai nogyo = Japanese journal of tropical agriculture. Sept 1983. v. 27 (3). p. 149-157. ill. Includes references. (NAL Call No.: SB111.A2N43).

0211
Starch digestibility of foods: A nutritional perspective.
Dreher, Mark L. ; Dreher, Claudia J.; Berry, James W. Boca Raton, Fla. : CRC Press. CRC critical reviews in food science and nutrition. 1984. Literature review. v. 20 (1). p. 47-71. charts. Includes 164 references. (NAL Call No.: TP368.C7).

0212
Starch phosphorylase from tapioca (Manihot utilissima) tuber: isolation and some physico-chemical properties.
IJBBQ. Kumar, A. ; Sanwal, G.G. New Delhi, India : Council of Scientific and Industrial Research. Indian journal of biochemistry and biophysics. Aug 1984. v. 21 (4). p. 241-247. ill. Includes 36 references. (NAL Call No.: DNAL QP501.I48).

0213
Stomatal characteristics among cassava cultivars and their relation to gas exchange (Anatomy, Manihot esculenta, photosynthesis, transpiration).
El-Sharkawy, M.A. ; Cock, J.H.; Cadena, G. de. Cambridge : Cambridge University Press. Experimental agriculture. Jan 1984. v. 20 (1). p. 67-76. ill. Includes references. (NAL Call No.: 10 EX72).

0214
Stomatal ontogeny in the genus Manihot Mill. (Euphorbiaceae) (Manihot esculenta, cassava, Manihot glaziovii, manicoba tree, morphology).
Karatela, Y.Y. ; Gill, L.S. Berlin, E. Ger. : Akademie. Feddes Repertorium. 1983. v. 94 (7/8). p. 525-528. ill. Includes references. (NAL Call No.: 450 R29).

0215
Studies on some cassava diseases in the "green belt" zone of the Sudan with special emphasis on cassava mosaic disease (Manihot esculenta).
Kwaje, S.L. The Hague : International Society for Horticultural Science. Acta horticulturea. Apr 1984. Paper presented at the "Eighth African Symposium on Horticultural Crops," 20-24 March, 1983, Wad Nedani, Sudan. Apr 1984. (143). p. 485-490. Includes references. (NAL Call No.: 80 AC82).

0216
Studies on the microbiology of cassava retting for foo-foo production (Bacteria and yeasts).
Okafor, N. ; Ijioma, B.; Oyolu, C. London : Blackwell Scientific Publications. The Journal of applied bacteriology. Feb 1984. v. 56 (1). p. 1-13. Includes references. (NAL Call No.: 448.39 SO12).

0217
Studies on the nutrients contents of yellow-pigmented cassava.
Safo-Kantanka, O. ; Aboagye, P.; Amartey, S.A.; Oldham, J.H. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 103-104. (NAL Call No.: DNAL SB210.T76T74 1983).

0218
The subterranean chinch bug, a new pest of cassava (Cyrtomenus bergi).
Bellotti, A.C. ; Garcia G, C.A. Cali : Centro Internacional de Agricultura Tropical. Cassava newsletter. Nov 1983. v. 7 (2). p. 10-11. ill. (NAL Call No.: SB211.C3C38).

0219
Suitability of five preemergence herbicides for cassava (Manihot esculenta Cranz) (Weed control in Malaysia).
Lo, N.P. Serdang, Selangor : Malaysian Agricultural Research and Development Institute. MARDI research bulletin. Apr 1982. v. 10 (1). p. 26-32. Includes 4 references. (NAL Call No.: S19.M37).

0220
Summary and general conclusions (on the role of cassava in the etiology of endemic goitre and cretinism, Zaire).
Delange, F. ; Bourdoux, P.; Ermans, A.M. Ottawa : International Development Research Centre, c1982. Nutritional factors involved in the goitrogenic action of cassava / editors, F. Delange, F.B. Iteke, and A.M. Ermans. p. 84-86. (NAL Call No.: RC656.3.N88).

0221
Surface mycoflora of Manihot esculenta and Manihot utilissima tubers in Nigeria (Cassava, postharvest deterioration due to fungi).
Adisa, V.A. New Delhi : Indian Phytopathological Society. Indian phytopathology. Sept 1983. v. 36. (3) p. 533-538. Includes references. (NAL Call No.: 464.8 IN2).

0222
Susceptibility of cassava to Colletotorichum manihotis.
Muimba-Kankolongo, A. ; Adeniji, M.O.; Terry, E.R. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 82-85. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0223
Symptomatology and etiology of a bacterial blight of cassava (Manihot esculenta Crantz) (Xanthomonas manihotis, Kerala).
Nair, R.R.ARJKA. ; Pally, P.V.; Menon, M.R. Kerala : Kerala Agricultural University. Agricultural research journal of Kerala. June 1981. v. 19 (pt.1). p. 59-62. ill., 2 plates. 2 p. ref. (NAL Call No.: 22 AG823).

0224
Tabular descriptions of crops grown in the tropics 5. Cassava (Manihot esculenta Crantz) /by Shu Fukai. -.
Fukai, Shu. Canberra : CSIRO, Institute of Biological Resources, Division of Water and Land Resources, 1985. "February 1985.". 51 p. ; 30 cm. -. Bibliography: p. 49-51. (NAL Call No.: DNAL S918.A8T44 no.85/3).

0225
Technical note: cyanide elimination, chemical composition and evaluation in breadmaking of oven dried cassava peeled root chips or slices.
Gomez, G. ; Valdivieso, M.; Zapata, L.E.; Pardo, C. Oxford, Eng. : Blackwell Scientific. Journal of food technology. Aug 1984. v. 19 (4). p. 493-498. Includes references. (NAL Call No.: TP368.J6).

0226
Time for tapioca, 1970 to 1980: European demand and world supply of dried cassava.
Nelson, G.C. Stanford : Food Research Institute, Stanford University. Food Research Institute studies. 1983. v. 19 (1). p. 25-49. Includes 26 references. (NAL Call No.: 389.8 F7382).

0227
Tissue culture for the conservation and international exchange of germplasm (Solanum tuberosum, potatoes Manihot esculenta, cassava).
Roca, W.M. ; Rodriquez, J.; Beltran, J.; Roa, J.; Mafla, G. Tokyo : Japanese Association for Plant Tissue Culture, (1982?). Plant tissue culture 1982 : proceedings, 5th International Congress of Plant Tissue and Cell Culture held at Tokyo and Lake Yamanake, Japan, July 11-16, 1982 / edited by Akio Fujiwara. p. 771-772. Includes references. (NAL Call No.: QK725.I49 1982).

0228
Toxin production by Xanthomonas campestris pv. manihotis, the cassava bacterial blight pathogen (Manihot esculenta).
Cherian, M.T.IPHYA. ; Mathew, J. New Delhi : Indian Phytopathological Society. Indian phytopathology. Mar 1983. v. 36 (1). p. 156-157. Includes references. (NAL Call No.: 464.8 IN2).

0229
Traditional cassava and sorghum technology and its effect on mineral food value.
Joseph, A. Boca Raton, Fla. : CRC Press, c1982. Handbook of nutritive value of processed food / M. Rechcigl, Jr., editor. p. 511-520. Includes references. (NAL Call No.: TX551.H29 V.1).

0230
Transfer of mass and energy in a cassava community (Manihot esculenta Crantz cv. Cubana). 2. CO2 (carbon dioxide) exchange in a savanna climate.
San Jose, J.J.ANBOA4. ; Berrade, F. London : Academic Press. Annals of botany. Oct 1983. v. 52 (4). p. 521-533. Includes references. (NAL Call No.: 450 AN7).

0231
Transfer of mass and energy in a cassava (Manihot esculenta Crantz cv. Cubana) community. 1. Microclimate and water vapour exchange in a savanna climate.
San Jose, J.J.ANBOA4. ; Berrade, F. London : Academic Press. Annals of botany. Oct 1983. v. 52 (4). p. 507-520. Includes references. (NAL Call No.: 450 AN7).

0232
True metabolizable energy values of cassava tuber and leaf meals for poultry (Chickens, single comb White Leghorn roosters).
Ravindran, V.TAGLA. ; Kornegay, E.T.; Potter, L.M.; Webb, K.E. Jr.; Parsons, C.M. Guildford : Butterworth Scientific. Tropical agriculture. Apr 1983. v. 60 (2). p. 82-84. Includes references. (NAL Call No.: 26 T754).

0233
Tuberization in cassava (Manihot esculenta): cytokinin and abscisic acid activity in tuberous roots.
Melis, R.J.M. ; Van Staden, J. Stuttgart, W. Ger. : Gustav Fischer. Journal of plant physiology. 1985. v. 118 (4). p. 357-366. ill. Includes references. (NAL Call No.: DNAL 450 Z32).

0234
Uganda (Root crops production, cassava, sweetpotatoes, yam, cocoyam).
Nyiira, Z.M. Ottawa, Canada : International Development Research Centre, 1982. Root crops in Eastern Africa : proceedings, workshop in Kigali, Rwanda, 23-27 Nov 1980 / cospon. by Gouvernement de la Republique rwandaise, Internatl. Institute of Tropical Agric., Internatl. Development Research Centre. p. 99-103. (NAL Call No.: SB210.E15R66).

0235
Use of cassava leaf meal in diets for pigs in the humid tropics.
Alhassan, W.S.TAHPA. ; Odoi, F. Edinburgh : Longman. Tropical animal health and production. 1982. v. 14 (4). p. 216-218. 5 ref. (NAL Call No.: SF601.T7).

0236
The use of cassava root meal in chicken rations in Nigeria.
Eshiett, N. ; Ademosun, A.A. Genova : (s.n.). Zootecnica international. Oct 1982. Oct 1982. (10). p. 18-21. 14 ref. (NAL Call No.: SF600.Z6).

0237
The use of tacca and cassava as intercrops with coconuts on a calcareous sand (Tacca leontopetaloides, Manihot esculenta, Cook Islands).
Finlay, J.R.FJAJA. Suva : Ministry of Agriculture and Fisheries. Fiji agricultural journal. Jan/June 1981. v. 43 (1). p. 23-26. 4 ref. (NAL Call No.: 25 F47AG).

0238
Utilization of ensiled and sundried cassava peels by growing swine (Nigeria).
Obioha, F.C.NURIB. ; Anikwe, P.C.N. Los Altos : Geron-X, Inc. Nutrition reports international. Dec 1982. v. 26 (6). p. 961-972. Includes references. (NAL Call No.: RC620.A1N8).

0239
Utilization of Eudrilus eugeniae for disposal of cassava peel.
Mba, C.C. London : Chapman and Hall, 1983. Earthworm ecology : from Darwin to vermiculture / edited by J.E. Satchell. p. 315-321. Includes 9 references. (NAL Call No.: DNAL QL391.A6E27).

0240
The utilization of Thai cassava root products in swine ration.
TOAMB6. Kitpanit, N. Tokyo : The University. Memoirs of the Tokyo University of Agriculture. Literature review. Dec 1984. v. 26. p. 1-58. Includes references. (NAL Call No.: DNAL S530.J3T6).

0241
Variability in leaf HCN hydrogen cyanides , protein, and macro-nutrient concentration in different canopy portions of cassava.
BTLTA. Lutaladio, N.B. ; Wahua, T.A.T.; Hahn, S.K. Leipzig, East Ger. : Karl-Marx-Universitat. Beitrage zur tropischen Landwirtschaft und Veterinarmedizin. 1984. v. 22 (2). p. 155-160. Includes 7 references. (NAL Call No.: DNAL 26 L53).

0242
Viral diseases affecting cassava in the Americas.
Lozano, J.C. ; Jayasinghe, U.; Pineda, B. Cali : Centro Internacional de Agricultura Tropical. Cassava newsletter. Nov 1983. v. 7 (2). p. 1-4. ill. (NAL Call No.: SB211.C3C38).

0243
Viscoelastic properties of cassava roots (Mechanical harvesting, model).
Makanjuola, G.A. ; Asoegwu, N.S. St. Joseph, Mich. : The Society. Paper - American Society of Agricultural Engineers (Microfiche collection). 1984. Paper presented at the 1984 Summer Meeting of the American Society of Agricultural Engineers. Available for purchase from: The American Society of Agricultural Engineers, Order Dept., 2950 Niles Road, St. Joseph, Michigan 49085. Telephone the Order Dept. at (616) 429-0300 for information and prices. 1984. (fiche no. 84-3047). 1 microfiche : ill. Includes references. (NAL Call No.: FICHE S-72).

0244
Water use efficiency of cassava. I. Effects of air humidity and water stress on stomatal conductance and gas exchange (Manihot esculenta, photosynthesis).
El-Sharkawy, M.A. ; Cock, J.H. Madison, Wis. : Crop Science Society of America. Crop science. May/June 1984. v. 24 (3). p. 497-502. ill. Includes references. (NAL Call No.: 64.8 C883).

0245
Water use efficiency of cassava. II. Differing sensitivity of stomata to air humidity in cassava and other warm-climate species (Manihot esculenta).
El-Sharkawy, M.A. ; Cock, J.H.; Held K. A.A. Madison, Wis. : Crop Science Society of America. Crop science. May/June 1984. v. 24 (3). p. 503-507. ill. Includes references. (NAL Call No.: 64.8 C883).

0246
Weed control in no-tillage cassava in the subhumid and humid tropics (Manihot esculenta).
Akobundu, I.O. Corvallis, Or. : International Plant Protection Center, Oregon State University, 1983. No-tillage crop production in the Tropics : proceedings, symposium held Aug 6-7, 1981, Monrovia, Liberia / spon. West African Weed Science Society and International Weed Science Society ; ed. I.O. Akobundu, A.E. Deutsch. p. 119-126. Includes references. (NAL Call No.: S604.37.N6).

0247
Weed interference incassava--maize intercrop in the rain forest of Nigeria.
Unamma, R.P.A. ; Ene, L.S.O. Ottawa, Ont. : International Development Research Centre, c1984. Tropical root crops : production and uses in Africa : proceedings, 2nd Triennial Symp., Internatl. Society for Tropical Root Crops, Africa Branch, Douala, Cameroon, 14-19 Aug 1983 / editors: E.R. Terr. p. 59-62. ill. (NAL Call No.: DNAL SB210.T76T74 1983).

0248
Weeds in tropical crops : review of abstracts on constraints in production caused by weeds in maize, rice, sorghum-millet, groundnuts and cassava, 1952 - 1980 / by Jacqueline M. Benson.
Benson, Jacqueline M. Rome Food and Agriculture Organization of the United Nations 1982. 63 p. ; 28 cm. -. Bibliography: p. 62-63. (NAL Call No.: SB13.F6 no.32 Suppl. 1).
